HUNS GETTING ARTILLERY OUT OF BELGIUM

(By Associated Press)
Paris, Oct. 2.—The Germans are moving their heavy artillery away from the Belgian coast, according to reports here today. The Belgian army, cooperating with the British Army of Gen. Plumer and the French army of Gen. Degoutte, successfully repelled today its attack on the Flanders front.

Germany's Defenses Between Cambrai and St. Quentin Are Crumbling and Their Expected Withdrawal From France and Belgium is Near—The Hindenburg Defense System From the Scarpe to the Oise, Fifty Miles, is Being Overrun—Turkey is Proposing Peace, While Important Cities Fall—Another Big Day for the Allies

(By Associated Press)
Germany's defenses between Cambrai and St. Quentin are crumbling under the determined blows of Marshal Foch and the expected withdrawal from France and Belgium apparently is drawing nearer. Under the attacks of British, French and American troops the Hindenburg defense system from the Scarpe to the Oise, a distance of 50 miles, is being overrun. In the north the valuable network of railroads in Flanders rapidly is becoming useless and in the south the French are pressing vigorously their advance west and north of Rheims.

BRITISH AND BELGIANS PUSH FORWARD

London, Oct. 2.—French and Belgian troops have made fresh progress and the British have seized points on the Roulers-Menin railway according to the Belgian official statement issued last night. A British detachment has crossed the Lys River.

ALLIES ARE SURROUNDING ST. QUENTIN

(By Associated Press)
Paris, Oct. 2.—Heavy fighting took place in St. Quentin last night. The British are pushing further into German positions on the front between St. Quentin and Le Cateau. Field Marshal Haig reported. The Australians have finished the work of clearing out the German defenses south of Le Cateau and have freed Juncourt just to the south of the enemy troops.

BOCHE LINE TORN IN MANY PLACES

(By Associated Press)
London, Oct. 2.—Wide gaps have been torn in the German line between St. Quentin and Le Cateau by Field Marshal Haig's forces. The British commander reported today the breaking of the German line on the Ponsomme-Banastre front, 2 1/2 miles east and 5 miles northeast of St. Quentin. Sennebar, 4 1/2 miles south east of Bellecourt has been captured. South of Cambrai British and Scottish troops with New Zealanders have occupied important points. The British are pushing further into German positions on the front between St. Quentin and Le Cateau. Field Marshal Haig reported. The Australians have finished the work of clearing out the German defenses south of Le Cateau and have freed Juncourt just to the south of the enemy troops.

Crawford
Ranges

Was Yours One?

Among the exclusive Crawford features that have made this range preferred above all others are:—

A convenient gas end oven, equipped with new and improved gas broiler. This broiler is instantly adjustable to hold the food at any required distance from the flame without touching the pan, without bending over. It folds away when not in use.

Two separate ovens, both large and roomy—one for coal, the other for gas—both are perfect.

Five center heat gas burners of a new and efficient type bring the heat directly under the center of utensils without wasting gas.

Guarded gas cocks which eliminate danger of accidental opening.

Perfection of design and finish, long service and utility, distinguish Crawford coal ranges—or gas combinations.

GERMANS DO NOT LIKE U. S. BOMBS

(By Associated Press)

Behind the American Lines in France, Oct. 1.—Bombs of incredible size are now carried by American aircraft, and some idea of their destructive capacity may be gained from the fact that they cannot be dropped at a lower altitude than 3000 feet, so greatly is the air disturbed by the explosion.

An amazing incident occurred when the first of these was dropped on enemy territory, which is much harried by American bombers and consequently bristled with searchlights and anti-aircraft batteries. So terrific was the explosion that every searchlight went out instantly, and the airmen were deprived of the landmarks on which they had counted to find their way home.

Americans in this squadron have had remarkable success. In two weeks they accounted for 25 enemy machines, 17 of which were crashed, and one balloon. All are imbued with the idea of maintaining the offensive under all circumstances.

Recently two of them, finding themselves cut off by 20 of the enemy while returning to camp, refused to seek safety in flight. Instead, they swept up at the German machines, which were all above them, and so rattled the enemy by their unexpected daring that they actually brought down four of his machines and, though not undamaged themselves, were able to land behind our lines.

CRYING NEED FOR MORE NURSES

There is a great need of everybody who possibly has any knowledge of nursing, either through the Red Cross home nursing classes or first aid classes, or through actual service as a nurse, of enrolling with the Portsmouth Chapter of the Red Cross for work about this city.

If they do not feel competent to do nursing themselves they can at least assist other nurses and stand watch while they get much needed rest. Many of the nurses and volunteers are getting tired out for want of proper sleep and rest, and anybody who can volunteer to assist them will be doing a great service.

Then there is a great demand for nurses all over the city. Physicians claim that fifty to a hundred nurses could be well employed about the city at present. There are many cases where women have volunteered and who while not nurses are capable of giving most excellent care and of providing regular nourishment for the sick people. These people are doing a great work and it is a pity that there are not more of them.

A woman to look in needed at the Emergency hospital and also a woman to do washing and general cleaning. These positions will be paid for. In fact, it is not a question of money, but service.

One physician said last evening, that people must not get panicky, every physician is doing his level best to see his many patients as possible, and those who are in the greatest need of calls will get them first and others afterwards. It is not a question, as in the case of the nurses, of money; it is service and the greatest amount possible they are seeking for.

The Race for U. S. Senator.

With the nomination of John B. Jameson on Monday evening as the Democratic candidate to succeed the late Senator Jacob H. Gallinger marks the completion of preparations for the senatorial race and the Democrats have named their strongest man. Mr. Jameson is very popular, and a man of ability. The Republicans with Governor Henry W. Keyes in the fight to secure the seat of Henry F. Hollis have named a man of rare business ability coupled with the qualifications of being a good fellow, intensely interested in the State and Nation. On the ticket with him is the Hon. George H. Moses of Concord, who will make the fight to succeed the late Senator Gallinger. Mr. Moses is thoroughly equipped for the duties of a senator. He is able, fearless and is an excellent campaigner and a Republican of the dyed in the wool type. These men will be opposed by two Democrats with a strong following and both popular, John B. Jameson of Concord and Eugene E. Reed of Manchester. Reed has proved his ability to get votes when he was elected to Congress. New Hampshire need not be ashamed of her candidates on either side.

Have the clams also gone on strike? It would seem so, to judge from the present scarcity along this part of the coast, and it is no laughing matter. The clam is naturally of a retiring nature, but just now he ought to be at the front and doing his humble part toward helping to win the war.

Premier Clemenceau of France visited the front on his 79th birthday, Sept. 28, and was lustily cheered by the soldiers who saw him. Oslerism does not seem to have obtained much of a foothold in the old countries, where many of the generals are well past the chloroform age.

Winter as it is known on the New Hampshire coast is not far away, and it is comforting to know that work on the new houses for the workmen at Atlantic Heights is being rushed and that several hundred families will be comfortably housed there in the not distant future.

Fuel Administrator Garfield has made it clear that the people have a right to take care of their health, even if they have to burn coal in so doing. And it is probable that under the present conditions some coal would have been burned whether he had spoke nor not.

"Holy Moses!" must have been the mental if not the verbal expression of the losing side at the Republican state convention last week, when George H. Moses walked off with the nomination for the United States Senate by a majority of more than two to one.

Gasless Sundays and the influenza are giving New England a taste of what Sunday used to be in the good old days. But the indications that the people like it are altogether superficial. If you don't believe this watch them break loose when the ban is lifted.

Wolfeboro believes in no half-way work in guarding against the spread of influenza. Even standing and gossiping on the street corners is forbidden. Thus is this cherished custom elevated to the level of the churches and the highest-toned social functions.

There was a generous response in this city and throughout the country to the call for clothing for the Belgians, and as a result hundreds of thousands of garments will go where they will do far more good than they would in the hands of the ragmen.

Portsmouth's quota of the Fourth Liberty Loan rises well toward the million mark, but there is no doubt that the people of the city will rise to the occasion as they have in the past. They have never yet been found wanting, and they will not fail now.

The Boston Elevated Railroad has prohibited smoking on its trains as a means of preventing the spread of influenza. But there has been a very prevalent idea that tobacco smoke is more or less efficacious in warding off disease germs.

The Germans object to the use of shotguns by the American soldiers. They should have kept themselves above the level of the beasts on which the Americans practiced with shotguns when they were boys.

Bulgaria knows when she has got enough. There are others who have the lesson to learn, and through the schooling they are getting at present it ought not to take them long to learn it.

JAMESON CANDIDATE FOR SENATE

Concord, Oct. 2.—John B. Jameson, chairman of the New Hampshire Public Safety Committee, was nominated Monday by a Democratic State Convention as a candidate for United States Senator to fill out the term, expiring March 4, 1921, of the late Jacob H. Gallinger. The nomination was by acclamation and was accepted by Mr. Jameson, who told the delegates that he did not think he ought to relinquish his place on the Public Safety Committee, and therefore could not make an active campaign, but, if elected, would devote himself entirely to the support of President Wilson in winning the war. He was greeted with great enthusiasm.

CONCORD NURSES BUSY AS ELSEWHERE

Concord, Oct. 2.—The State Board of Health will act as a central agency in replying to calls from other sources for aid in fighting the epidemic. The Public Safety Committee and the local Red Cross have received requests for nurses to care for the sick. Few however could be sent even to nearby towns as the local nurses were occupied in caring for illness of the city.

LOCAL DEMOCRATS PLEASED

The local Democrats are much pleased over the nomination of Hon. John B. Jameson for the U. S. Senate. He has a large circle of friends here who have long had great admiration for his sterling qualities.

EDITORIAL COMMENT

Spirit of the New Allies
(From the Brooklyn Eagle)
We don't imagine that Brazil can help much in whipping Austria, or that Spain can be of much use in settling affairs in Russia, but the spirit of Brazil and of Spain in their new offers is one to be fully appreciated and heartily commended by the Allies.

The German Whimper
(From the New York Evening Post)
Everybody knows the difference between a manly attitude in the face of misfortune, and a whining attitude. And today the commonest tone of the German rulers is a whimper. This is presumptive proof not only that their own nerve is failing, but that they see evidence all around them of a sinking into far and despair.

Learning the Map of the World
(From the Springfield Republican)
Conscientious readers have had to take down the atlas oftener of late than at any time since the Russian steam-roller began to roll backward. Nothing stimulates a love of geography more than to see the little flags going across the map in the right direction.

EXETER

Exeter, Oct. 1.—The influenza epidemic remains about the same here, which is still serious, and new cases have been reported in this section during the past 24 hours. No deaths have been reported in Exeter, but one has occurred in Newfields, where Willard T. Ellis died at his home at 11 o'clock this morning. Mr. Ellis was 45 years of age, and lived there for several years, coming from Roxbury, Mass.

He was employed at the Portsmouth Navy Yard being taken ill with pneumonia last week. He is survived by a wife, one son, Willard T. Ellis, Jr., who is in the Navy, and a daughter, Miss Muriel Ellis, a nurse in the Gale hospital at Haverhill, Mass., besides his father.

At the Phillips Exeter academy there are no more serious cases, but every precaution is being taken to check the distemper. There are no chapel exercises at present, and the sessions of study hours, commonly called "the senate," has been omitted for the present. The recitations are being held as usual.

The surrender of Bulgaria was celebrated here in fitting style last evening, bells being rung and whistles blown for 15 minutes. It was the first rejoicing of the kind since the allies commenced the big drive which resulted in such success on July 19. The celebration was taken up by the students of the academy, who came down town in a body and cheered the news lustily.

Exeter's first was baby was born Monday to Mr. and Mrs. Francis Coleman. Mr. Coleman is now in France, he going out from here with the draft quota of April 26.

The Squamscott House, long Exeter's leading hostelry, closed its doors to the public last night. It has had a varied career for the past few years, remaining closed for a period, and of late years it has had several landlords. The last one was J. W. Libbey of Boston, who returned last evening. It is doubtful if an opening is attempted during the present war times.

KITTERY

In the municipal court this morning at 10 o'clock, Thomas C. Blaisdell of Kittery Junction was found guilty of an assault and battery on his daughter, Mrs. Pauline T. Becker, with whom he lives, and was fined \$5.00 and costs of \$10.98, which he paid, and was also placed under bonds of \$100 by Judge Shaw to keep the peace for a term of six months from date. His personal recognizance was accepted.

Mrs. Lillian (Lathrop) Dixon, wife of Raymond E. Dixon of Government street, died at about 9 o'clock this morning from pneumonia, following an attack of influenza, aged 28 years. She leaves in addition to her husband, five small children. She had been critically sick since last Saturday.

Daniel Lunt of Pleasant street, who has been very sick for a week, is very much improved.

PREVENTATIVE SERUM FOR INFLUENZA FOUND

New York, Oct. 2.—Discovery of a serum which, he said, preliminary experiments indicate will act as a preventative for Spanish influenza, was announced last night by Health Commissioner Copeland.

Tests have given promise of success, he said, with the result that the serum is being prepared for use by physicians and will be ready for distribution in small quantities in a few days.

The serum, discovered by Dr. William H. Park, the Health Department bacteriologist, is made from influenza

A REAL AMERICAN—A YANK.

(By Andrew Jouliert of New York)
Over the River Maine the Yanks had chased the frightened Huns. Had routed them from hidden holes and captured men and guns; And as they stood on the river bank, withdrawn for a time from the fray, The top sergeant called the roll of his men; were they Americans names? you say.

They were English, French and Italian names, Swedish, Russian and Serb, Irish, Chinese, Dutch and Welsh, Bohemian, Indian and Kurd; Every breed represented by the brave men in that rank, But every mother's son there was a real American—a Yank!

Flanagan, eldest brother of the groom, and a member of the faculty at St. Benedict's College, Newark, N. J. The groom is employed at the Portsmouth Navy Yard and the couple will take up their residence on Main street, Dover.

NURSE DIES IN NASHUA

Manchester, Oct. 2.—Miss Kathryn Sweeney, one of the most talented of West Manchester's young women, died at St. Joseph's Hospital, Nashua, Tuesday afternoon aged 20 years. Death resulted from pneumonia. Miss Sweeney was a native of Manchester, the daughter of John and Mary Sweeney of 30 Prince street. Last February she entered the Nurses' Training School at the hospital where she had made many friends.

H. E. LOAN SUBSCRIPTIONS

(By Associated Press)
Boston, Oct. 2.—New England Liberty Loan subscriptions showed a gain of \$30,504,000 in the reports to the Boston Federal Reserve Bank today, bringing the total up to \$97,632,000. This is nearly one-fifth of the districts quota of half a billion. Tabulations showed that 71,976 persons, thus far have purchased bonds. The detailed report by states follows: Maine, for Tuesday, \$2,693,000, total \$6,117,000; New Hampshire, Tuesday, \$209,000, total \$3,202,000; Vermont, Tuesday, \$1,893,000, total \$3,761,000; Massachusetts, Tuesday, \$16,759,000, total \$62,165,000. A personal subscription of \$1,000,000 was received today from Henry H. Elliott, Executive Manager of the State Public Safety Committee, through a local banking house.

Lieut. Warren Hayford, U. S. A., son of Mr. and Mrs. George W. Hayford of Exeter, N. H., formerly of this city, has lately returned from France and has been visiting at the home of his parents. Lieut. Hayford arrived in New York late in September and telegraphed his father that he would be at home the next day. He had been in France a long time and the unexpected news that he was in the States again and would be home, you leave brought much happiness to the parents.

Lieut. Hayford is a graduate of the Portsmouth high school and well known in this city where he has many friends. He was attending college when the war broke out and very soon volunteered for service and later went across.

In the big offensive which started on July 18 Lieut. Hayford was right up to the front in an observation post and saw everything which took place in his sector. He said it surely was a wonderful sight to witness the men go over the top and that he, too, had been in several, warm places but got out all right and that one gets hardened to the dangerous life very readily. The regiment to which he was assigned was ordered to go to the front on July fifth. Reaching there he was stationed in support of a battalion of French Infantry on the extreme right of the French line, the U. S. Marines on the left of the American line were the next in line on the battle front. This was at the noted battlefield of Chateau-Thierry and the beginning of the continued French and American drive which started on July 18. Lieut. Hayford saw the beginning of the drive as he was telephonic officer for his battalion, having at times 18 lines of telephone wires under his care. Some of the lines were six miles in length, then tapering down to short ones; these of course, starting sometimes from the very first line trench, had to be kept in order, despite the battles. Lines were often getting shot up, the troops always moving forward as new positions were taken. While Lieut. Hayford's position was one filled with danger it gave him opportunity to go to the front whenever he wished and observe all movements. Night and day, until the Germans were driven across the Vesle as the battle went on for weeks, Lieut. Hayford had some narrow escapes on the field and in position.

A short time before the first of September he went up to a position in front of Verdun and was there two weeks. Very unexpectedly about Sept. 5, he, with 11 other officers from his regiment, got orders to return to the States to act as officers and instructors of new troops. A large number of officers came across at the same time, all returning for the same purpose. Lieut. Hayford was "given" seven

days' leave of absence and then ordered to report at Camp Meade, Annapolis Junction, during his way across he has had some wonderful experiences and despite their great danger, he would not have missed them for anything. Much of the time before going to the front he was drilling other companies than his own. He has seen much of France, been in Paris three times and has visited all the prominent French seaports. He states the American troops are especially well pleased with the work of the Red Cross, and the Salvation Army as they do all possible for the soldiers as near the front line trenches as they are allowed to go.

RAILROAD NOTES

A new sand house for the storage of locomotive sand is being erected near the Portsmouth roundhouse of the Boston and Maine by a Lynn firm.

From the office of the general manager of the Maine Central railroad announcement is made of the appointment of Louis M. Patterson of Portland as Federal treasurer of the railroad, under the direction of William G. MeAdoo, Federal director, and approved by A. H. Smith, regional director. Mr. Patterson has been associated with the treasury office of the road for a considerable time. Frank W. York, former treasurer of the company, has been assigned to other duties. The order is effective today.

A crew of painters are at work on the new awning recently erected at the local depot.

Conductor Frank H. Moore, who is very ill at his home on Deer street, was reported as slightly improved this morning.

The new mileage books good on any railroad under the federal control are now on sale at the local station. Lawrence B. Billbruch, station agent at Kittery Junction, is confined to his home with pneumonia.

Fourteen men are absent from their duties at the Portsmouth roundhouse owing to the influenza.

The contractors expect to begin the removal of the rafters of the local depot on Sunday.

RED CROSS WORK.

At the Red Cross work rooms at the Elks' Home on Pleasant street Monday 20 workers were present and a good day's work was accomplished.

Twenty-six pneumonia jackets were made, also 50 gauze masks to be used at the Emergency Hospital.

SAVE YOUR HAIR AND BEAUTIFY IT WITH 'DANDERINE'

Spend a few cents! Dandruff disappears and hair stops coming out.

Try this! Hair gets beautiful, wavy and thick in few moments.

If you care for heavy hair, that glistens with beauty and is radiant with life; has an incomparable softness and is fluffy and lustrous, try Danderine.

Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff; you cannot have nice, heavy healthy hair if you have dandruff. This destructive scurf robs the hair of its lustre, its strength and its very life; and if not overcome it produces a feverishness and itching of the scalp; the hair roots famish, loosen and die; then the hair falls out fast.

If your hair has been neglected and is thin, faded, dry, scraggy or too oily, get a small bottle of Knowlton's Danderine at any drug store or toilet counter for a few cents; apply a little as directed, and ten minutes after you will say this was the best investment you ever made.

We sincerely believe, regardless of everything else advertised, that if you desire soft, lustrous, beautiful hair and lots of it—no dandruff—no itching scalp and no more falling hair—you must use Knowlton's Danderine. If eventually—why not now?

SENATE DEFEATS SUFFRAGE AMENDMENT

Lacks Two Votes of Necessary Two
Third Majority--President's Appeal
Did Not Alter Vote

(By Associated Press)
Washington, Oct. 1.—The Senate by a vote of 53 to 31 failed to give the necessary two-thirds majority to adopt the Susan B. Anthony suffrage amendment.

President Wilson's appeal in behalf of the measure apparently made no change in the vote; the opposition securing every vote they counted upon. Two votes were lacking to pass the measure and this was made three by Senator Jones' changing his vote so that he could move to reconsider.

"FORDS"

Now that new Ford Cars are scarce the next best thing to do is to have your present car put in good running order. With a little care and very small expenditures you can keep your car up to date and in good mechanical order. But when you have these things attended to be sure and insist on getting genuine Ford parts. There are many substitutes and imitations and they are all supposed to be just as good but if your car is worth spending any money on it at all, why not use a little care and see that it is repaired right by using genuine Ford parts manufactured by the Ford Motor Co. of Detroit.

We have a large supply of parts in stock ready for immediate use.

EPIDEMIC CONDITIONS IMPROVING

There was a general betterment of conditions in regards to the influenza on Tuesday. There were two deaths at the Naval hospital in the past 24 hours and one in this city, a child. Local physicians state that they were not so many new cases as there has been and while there are many dangerously ill and more deaths may be expected, the general condition is better.

There must be no let-up in the strict observance of the rules of health, avoid crowds everywhere and keep out in the sun as much as possible. Physicians say that if they only had nurses enough they would be able to make a greater improvement, for there are cases where whole families are down with nobody to give them the proper attention and care.

HAVE DARK HAIR AND LOOK YOUNG

Nobody can Tell when you
Darken Gray, Faded Hair
with Sage Tea.

Grandmother kept her hair beautifully darkened, glossy and attractive with a brew of Sage Tea and Sulphur. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Witch's Sage and Sulphur Compound" you will get a large bottle of this old-time recipe, improved by the addition of other ingredients, all ready to use, at very little cost. This simple mixture can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says everybody uses "Witch's Sage and Sulphur Compound" now because it darkens so naturally and evenly that nobody can tell it has been applied—it is so easy to use, too. You simply dampen a comb or soft brush and draw it through your hair, taking one strand at a time. By morning the gray hair disappears; after another application or two, it is restored to its natural color and looks glossy, soft and beautiful. This preparation is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.

EPIDEMIC ON INCREASE IN MASS.

(By Associated Press)
Boston, Oct. 1.—Official reports sent to Washington state that the influenza is under control in Camp Devens and in the First Naval District, but that there is an increase among the civilian population in some parts of Massachusetts, with 6140 new cases and 89 deaths exclusive of Boston and with incomplete returns. The cities showing the greatest increase are Fall River, New Bedford, Haverhill, Lawrence and Lowell.

Boston Board of Health reports 162 deaths from influenza and 52 from pneumonia in the past twenty-four hours, ending at 10 o'clock this evening, an increase of 31 over the highest total yet recorded for one day.

SALTS FINE FOR ACHING KIDNEYS

We eat too much meat which
clogs Kidneys, then the
Back hurts.

Most folks forget that the kidneys, like the bowels, get sluggish and clogged and need a flushing occasionally, else we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorders.

You simply must keep your kidneys active and clean, and the moment you feel an ache or pain in the kidney region, get about four ounces of Jad Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and is harmless to flush clogged kidneys and stimulate them to normal activity. It also neutralizes the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts is harmless; inexpensive; makes a delightful effervescent lithia-water drink which everybody should take now and then to keep their kidneys clean, thus avoiding serious complications.

A well-known local druggist says he sells lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.

ST. QUENTIN CAPTURED BY THE FRENCH

(By Associated Press)
The town of St. Quentin, upon which the Germans so firmly built their hope of its being an insurmountable barrier against the enemy, has at last been entered by the French and seemingly the gateway is open to Marshal Foch for a swift advance eastward to recover the entire French territory.

Meanwhile the Germans and their allies are continuing to play a losing game, and reports have it that the Turks, realizing the critical situation, through the success of the Allies and the withdrawal of the Bulgarians, are sending out peace feelers to the entente powers.

From northern Belgium to the region about Verdun the battlefields are still seething with action and on every front the entente forces continue to make gains despite the desperate resistance of the Germans.

In Flanders the Belgians and British in the region about Dixmude to Arras are still driving sharp wedges into the enemy lines in an easterly direction and they have captured important towns and are cutting communication lines which are necessary to the Germans to maintain their submarine base on the North Sea.

From Cambrai to St. Quentin notwithstanding the violent reaction of the Germans, the British, French and Americans are capturing more heavily fortified positions along the Hindenburg line. Midway between St. Quentin and Cambrai, the remaining points of the Hindenburg line are being demolished. Although the Germans have here imposed nearly half a million men in their effort to save this line they are being beaten back in every front.

Between the Vesle and the Aisne rivers the French continue to push back the enemy while in the Champagne sector the French in conjunction with the Americans are steadily pushing northward.

In the mountainous region of Italy the artillery action is increased to a considerable extent and it is probable that Marshal Foch will soon start a campaign on this front against the Austrians.

General Allenby has surrounded Damascus and the French cavalry are reported advancing along the Mediterranean coast and to have nearly reached Beirut.

In Macedonia west of Lake Ochrida, the Austrians are reported evacuating territory in Albania, which indicates that the Austrians realize that with Bulgaria out of the fight their troops will be a long way from home and in grave danger.

Peace demonstrations were held in Berlin which caused the intervention of the police. Some excesses were reported, such as tearing down statues etc. It is said that there is a cabinet crisis pending, through the resignation of the Chancellor, Vice Chancellor and Foreign Minister.

A GOOD MOTHER ANGEL

An entire family residing on street were found ill with diphtheria by a summer resident of New Castle the other day. The family consisted of three and they were without food or medicine. The daughter of the New Castle woman having had some training as a nurse volunteered her

services and went about caring for the sick while the mother brought cooked foods. There is much to be done right here at home these days.

Blizzard Ensilage Cutters and Blowers

Are strongly and thoroughly built, so reliable and fool-proof that they will take everything you feed them and keep up the work day in and day out, without a hitch or a breakdown.

Talk to men who use Blizzards. Ask them all the things you want to know about the Blizzard. The more you find out about the Blizzards, the more you'll want them.

Home Craft Week

Oct. 7 to Oct. 12 will be observed as Home Craft Week. We can show you many pretty curtains in Quaker Lace which help to make your home a pleasant place to live in. Strive to make your home a Terminal not a way station to some other place. Do not envy your neighbor's home, when you can have one just as attractive.

The windows connect the sturdy walls of your home with the great world outside. Therefore your windows need a covering that will soften this sharp contrast—a lace that will veil without excluding the view.

If you need curtains we want to show you Quaker Lace, but we do not want you to buy them unless you can buy a bond first.

AUTO OWNERS CAN AID HERE

In Checking Epidemic; Are Needed to Transport Doctors and Nurses.

A telegram was sent to the Surgeon General of the Public Health Service last night calling for four doctors and ten nurses to assist in stamping out the epidemic of influenza in Portsmouth and vicinity. This action was taken after a conference yesterday between the Federal officer in charge here and Dr. J. L. Lumsden, who is supervising head of the Department of Health and Sanitation of the U. S. Shipping Board. Dr. Lumsden has recently been in Boston assisting in organizing forces there. He urges prompt action in Portsmouth.

Transportation for the doctors and nurses will be necessary, to permit them to get about visiting cases and helping those in need of assistance.

Anyone having an automobile that can be used one hour, two hours or more daily are requested and urged to call at the Health Department in the City Hall or phone 338W and register for this patriotic duty and service, so that a schedule may be made.

The Health Department will provide the necessary gasoline and oil if requested upon written orders.

Do not wait! Register now! Call or phone your offer. It will be appreciated and a service you should be glad and willing to perform.

These automobiles will be used only for transporting doctors or nurses and the cars and drivers will be in no way exposed to any infection risk.

There should at least be fifteen automobiles on tap daily.

QUICK RESPONSE WITH FOOD

When it was stated in The Herald that the corps of nurses at the Emergency Hospital needed food, there was an almost instant response and two automobiles loaded with cooked foods arrived on Tuesday. There were roasts of lamb, cake, pies, vegetables, eggs, bacon, all kinds of home made preserves. The good women who answered this call are always doing good things—they prefer to do it without publicity.

HERALD "AD" FINDS THE LOST MONEY

The mourning of the loss of nearly \$100, by a resident of Austin street was dispelled when the owner of the money placed a lost ad in the Herald. The money was lost on Monday but the Herald was not long in causing the return of the same and the money was back in the hands of the owner on Tuesday. Both the owner and the Herald do not hesitate to say that the Herald is some advertising medium as well as the leading daily local paper in all news matters of the day and they are not alone in this belief. The steady increased circulation shows what the Herald is doing for its readers and advertisers.
